coverings, furnishing fabrics, curtains, furniture, upholstery materials, and polyester staple fibres. We now source and produce products for hospitality, retail, leisure and residential projects for most of the region's major holding groups.

In 2009, Al Mazen developed a new business specialisation targeting the exhibition industry, which resulted in the group working with most of the major contractors and venues in the Middle East. This division now supplies 80% of the exhibition market with flooring products.

As a result, we have grown to be the largest carpet importer, wholesale dealer and manufacturer across the Middle East, and the market leader in supplying furniture, flooring and carpet to event contractors and organisers.

Al Mazen Group boasts a UAE distribution network covering Abu Dhabi, Al Ain, Dubai, Sharjah and Umm Al Quwain, where our superior products are always available to suit every client's requirements and budget.

Established in the UAE in 1981, the Al Mazen Group has evolved into one of the largest suppliers of hard and soft furnishings and flooring in the Emirates over the course of four decades, with business activities spanning the Middle East and UK.

Initially a manufacturer of furniture and a supplier of high-quality flooring and furnishings in the UAE, we produced ready-made furniture in classic and contemporary styles for both individual customers and major real-estate projects, as well as bespoke designs tailored specifically to a client's unique requirements.

We have since expanded our product range to offer carpets, vinyl floor

CARPET & FURNITURE

Recognising a particular demand for exceptional levels of service and product quality catering to events and expos in the UAE, Al Mazen Group launched its products into the exhibition industry in 2009

- ▶ UAE's largest carpet supplier
- ▶ 80% market share
- ▶ Over 4 million sqm of carpet a year supplied to events
- ▶ Recycled products for sustainable best practice
- ▶ Business established in the UK in 2017

Expanding from supplying carpets to exhibition and events spaces to offering the full range of furnishing options and consultancy services, we now provide our services to some of the exhibition industry's largest organisers and venues.

Our exhibitions division currently delivers over 4 million square metres of carpet every year in the UAE, representing an impressive 80% market share, and execute 110 shows per year. As a result, we are considered the largest carpet importer, wholesale dealer and manufacturer in the UAE.

Following its success in the UAE, MJ's Event Services was successfully launched in the UK as well, and is rapidly growing its market share in the booming UK events and exhibition industry.

Using only products carefully selected from the best manufacturers, we specialise in the highest quality hand tufted and machine-made broadloom carpet, rugs, wall coverings and fabrics.

ECO-FRIENDLY SOLUTIONS

In line with the UAE Vision 2021 priority of Sustainable Environment and Infrastructure, Al Mazen consistently looks for innovative ways to reduce our environmental impact. As a pioneer in the exhibition furnishings sector, Al Mazen will become the first supplier in the Emirates to offer recycled carpets for exhibition spaces.

Each year, millions of square metres of carpet are utilised for exhibition spaces in the UAE alone. After many days of heavy footfall and general wear and tear, this carpet is not fit for re-use after the event, and is therefore often disposed of in landfill.

RECYCLED CARPET

Al Mazen Group will initially import recycled carpet from a specialist supplier in Belgium – currently the *only* manufacturer of its type in the world.

However, we are working with the UAE government to achieve certification to produce recycled carpets in-house, becoming the first in the Middle East, and the second in the world, to do so.

- ▶ Totally unique offering for the exhibition and event industry
- ▶ The only carpet in the world produced from recycled carpet
- ▶ Certified by the Centre for Research and Studies of Carpet Techniques (CRET)
- ▶ It is fireproof, resilient, hardwearing and the same quality as a non-recycled option
- ▶ Helping customers to realise their sustainability objectives.

With extensive experience working with major events and exhibitions over the past decade, MJ's is uniquely positioned to provide expert advice on creating and furnishing engaging exhibition spaces
